PROFILE

Front-end web developer dedicated to learning the ins and outs of coding. A strong work ethic coupled with a fine attention to detail ensures satisfaction in all aspects of development. Expectations will always be met with a willingness and poise to improve in every task. Great at building rapport with colleagues and maintains a team-oriented work style. Bilingual in English and Mandarin.

EDUCATION

Technical Web Designer, BCIT
Jun 2020 — Nov 2020

- Full-time 26 week program consisting of numerous hands-on projects using various coding languages and tools.
- Gained the necessary skills to build fully-fledged websites from scratch.

TECHNICAL PROJECTS

Movie Database App
React | JavaScript | CSS

- Project lead for a team of 3 to build a website application to display a movie database.
- Project experience utilizing a public API in conjunction with React to build a responsive website.
- Improved designs and added functionality by including hover effects and responsive buttons.

Artist Portfolio
WordPress | Javascript | CSS

- Project lead for a team of 3 to build a WordPress theme from scratch, utilizing ACF, custom post types, and taxonomies.
- Assumed the role of "Project Lead" to ensure consistent progress. Used GitHub and Asana to keep track of pace and maintain a healthy schedule.
- Assigned roles to team members and split work load evenly to prevent overlap in code or tasks.
